Our route takes you to the places you might never suspect, to the historical back streets of those left behind and all the things that go bump in the night.

It also includes entry into the Famous Whaley House! (America's Most Haunted)

We will tell you the history of who, what, and why, what has changed and what is left.

We do not have anything JUMPING out at you, we tell the stories and the history as it happened, show you how to take the best pictures, based on our experience, which in our opinion is the creepiest of all, because it is all real.
