Hello fellow Electra Province Sisters!  
The birds are singing, squirrels running around, and flowers are blooming. Spring is definitely in the air and what a beautiful sight! Spring time outside is like an art canvas made by mother nature and makes me think of Conclaves Achievement contest coming up in October! I hope all my fellow sisters are as excited as I am to learn more about Renaissance era of art! I am finding some movies to watch, books to read, and art galleries to visit. What are your plans to learn about your artist and their art piece of choice?? I hope you have a plan, and I will look forward to reading those reports that are submitted. See you all soon.

### Kansas Kappa's

The Kansas Kappas have enjoyed the local theater community by going to see "Basement Church Ladies" put on by the Lawrence theater group. We made valentines in February, celebrated birthdays and un-birthdays in April, and starting to work on our entries for conclave.

# Kansas Alpha's

While some folks hibernate in the winter, the Kansas Alphas have kept busy!

In November, Sister Kay Kimball gave a book review of Sweet as Pie Tough as Nails by Paula Marshall. It is the story of her rise from teen mother to CEO of BAMA Pies. So next time you eat a pie at McDonald's, you are eating a BAMA Pie!

In February, we held a social event for sister chapters and that doubled as a Rush Event.

A March trivia night turned into a Trivia Event as members meeting at the Goodyear Shelter House learned where to take shelter when the tornado sirens go off. The guard had a shelter full of lovely ladies for a bit. The games did continue only later than originally planned.

In keeping with the Alphas desire to learn about new businesses in Topeka, they met March 20 at Leaping Llamas, a business just eight months old at 725 S. Kansas Ave. The owner, Alicia Van Wallegghem, sells only items that have a Kansas connection. Items range from paintings, sculptures, soaps and lotions, and cards. In addition Alicia hosts and gives classes for adults and children.

In April, Carl Nuzman gave an interesting talk about global warming and cooling. He explained that the weather comes in cycles, and with graphs we could see when the dry cycles occurred and when the wet years happened.

We are looking forward to our remaining meetings on Scarlett O'Hara and Movie Discussion and Female Character Review: Dorothy Gale of "The Wizard of Oz." In addition, Kansas Alphas will enjoy a Founders Day Celebration in July.

As always, we wish our sisters a safe and joyful spring and summer!

Kansas Alphas enjoy a chat with Leaping Llamas owner Alicia Van Wallegghem.

Dear Electra Sisters,

How quickly the time has flown since the October Province Pleiad issue.

Spring has sprung right into Summer I think. Crazy weather days- hot/cold/warm/cool/and hot again. On the other hand, that could be my personal thermostat.

I wish to Thank so many of my Sisters for the kind words and prayers while dealing with my Mother's health issues... She'll be 95 in June.

LOOKS great
